THURSDAY, AUG. 28, 1947

Authorized as second class mail, Post Office Department, Ottawa.

## The Cheapest, The Surest

And, truly, the best way of letting the public in on the fact that you

- ★ HAVE SOMETHING TO SELL
- ★ WANT TO BUY SOMETHING
- ★ ARE HAVING AN AUCTION SALE
- ★ ARE INTRODUCING A NEW LINE

The best way, we say, to get these facts to the eyes of every farmer in the Carbon, Beiseker and Rockyford districts is through the columns of their weekly newspaper. Don't keep it a secret, let the buying public know about it, and at small cost per reader.

by ottawa observer

The hot days in the nation's capital last week reduced political speculation and argument to minimum. The shock of the sudden death of two notable figures Hon. Frank Bridges and Senator "Gerry" McGeer is keenly felt. Both were recognized as hard-working and exceptionally able, public men whose inspiration was their deep love for and loyalty to Canada.

#### Eyes on Britain

There is interest and some outspoken disappointment at the new economic plans put into force by Britain's socialist government. No one denies that it will have a serious effect on both Canada's foreign trade and her monetary position with respect to other countries. Our department of trade and commerce has convinced us that one third of our income comes from external trade and that the loss would be felt by all whether our income comes directly from external sources or indirectly. Under these conditions it is not difficult to understand the intense concern felt in all circles here about

our external relations. Britain's statement at Geneva she could not sign the multilateral tariff agreement, as now drafted, for at least another year is a blow to Canada's hopes and efforts for freer world trade.

#### Canada Needs People

Canada needs people with capital to establish new industries. It can use technicians and scientists. It requires farmers, lumbermen and miners. According to our most dependable economists, Canada can support 18 to 30 million people. We need increased population to support the increased and improved roads, railroads, electricity services and other essential modern improvements that we must have.

#### Facts of Interest

Bacon -- Canada contracted to supply to Great Britain between 250,000,000 and 265,000,000 pounds during the calendar year, of which 108,322,035 had been shipped by July 15th.

Beef -- Canada contracted to supply 120,000,000 pounds during the calendar year, of which 1,065,543 pounds were shipped by July 15th.

### WEDDING

St. Mary's Church, Beiseker was the scene of a pretty wedding on Tuesday, Aug. 19th at 10 a.m. when Patricia Elizabeth Wald, second eldest daughter of Mr. and Mrs. A. A. Wald, Beiseker, became the bride of Otto Tetz, son of Mr. and Mrs. J. Tetz of Vernon, B.C.

Dean J. Q. Killen, Rockyford, officiated at the marriage ceremony and celebrated the nuptial mass.

The bride who was given in marriage by her father, was charming in a floor length gown of white brocaded satin in an allover design of lilies of the valley, sweetheart neckline, full-length lily point sleeves and full flowing skirt. Her long veil was held in place by a wreath of orange blossoms worn cap fashion and she carried a bouquet of American Beauty roses. Her only ornament was a pearl necklace a gift from the groom.

Delores Selzler was maid of honor and she chose a corresponding gown of sky blue brocaded net over taffeta, sky blue chapel veil and carried a bouquet of pink carnations.

Dorothy Brown was bridesmaid and her gown was of pink georgette, matching chapel veil and her bouquet was of rose carnations.

Betty Schmaltz, gowned in sky blue net over taffeta, matching hat, carrying a nosegay of sweet peas, made a charming flower girl.

The groom was attended by Max Wald and Raymond Schmaltz.

Miss Anita Schmaltz played the wedding march and Felix Hagel played the wedding music during the mass, whilst the choir sang several hymns.

A wedding dinner was held at the home of the bride's parents for the immediate relatives and friends. The bride's table was centred with a three-tier wedding cake. The toast to the bride was proposed by Dean Killen and ably responded

ed to by the groom.

A wedding dance was held in the Beiseker Community Hall after which Mr. and Mrs. Tetz left for a honeymoon trip to Banff and on their return will reside in Beiseker.

Out of town guests were Fr. Label, Gleichen, Mr. and Mrs. J. Moore, Dallas, Oregon, Mr. Andrew Diebert and Marilyn; Mr. and Mrs. Ed. Diebert and Bill Boechler, all of Calgary.

### CARBON

Mrs. Harry Bertsch of Calgary, an old timer of the Carbon district, fell and broke her leg recently. Mrs. J. Anderson is in Calgary to care for her.

It is reported that "Buster" Hunt was injured in the mine at East Coulee this week and is in Drumheller hospital.

Mrs. C. Trumbley has returned from B.C. after spending three weeks there.

Mr. and Mrs. J. Wait of Mission City, B.C., were recent visitors at the C. Trumbley home. Mrs. Wait is Mr. Trumbley's sister and they had not seen each other for 29 years.

It is reported that there was three inches of rain fell in the Carbon district last Friday.

Mr. and Mrs. Hal Bradley of Calgary were Tuesday visitors at the A. Wallace home.

Mr. and Mrs. Paul Steele and family of Coronation were Carbon visitors Tuesday.

Stewart Hay is driving a new Plymouth.

Don't forget the Legion Saturday night dances in the Legion Hall.

Carl Moorhouse left Thursday for Vancouver to attend the wedding of his daughter, Phyllis.

Your subscription to The Chronicle is always appreciated.

Monday is Labor Day and a public holiday.

The week of September 7th is Lions International 100 percent attendance week. All Carbon Lions are urged to attend the meeting that week.

Mr. Evans, student minister at Christ Church, Carbon, left Wednesday to resume his studies.

Willie Fox left Thursday to continue his studies at the University at Edmonton.

Carbon school opens on Tuesday.

## Preparedness For Peace

IT HAS BEEN DISTRESSING to peace-loving people throughout the world to hear discussions in many quarters regarding the possibility of a third world war. Until the latter part of the summer of 1939 there still remained people in the democratic countries who were unable to believe that we were on the verge of war, and it is equally difficult now to accept the fact that another war may already be in the making. Whether this is the case or not, the fact is now almost universally acknowledged that world disarmament is not the key to world peace, and it is not likely that any powerful nation will ever again be unprepared against aggression as were Britain and the United States at the outbreak of the last war.

### World Fears Atom Bomb

Many thoughtful people are now of the opinion that any nation which is well prepared for war is unlikely to be attacked, and certainly, as more and more is heard of the development of new methods of warfare, it would appear almost incredible that any nation should launch an attack, knowing the type of weapons which might be used in retaliation. Although the whole world fears the terrible results of atomic warfare, it may be that the atom bomb will be a means of preserving peace since any country would surely hesitate to use such weapons against an enemy who could retaliate in the same way.

### Canada Will Do Her Share

In the Canadian House of Commons recently Hon. Brooke Claxton, Minister of National Defense, stated that if an international security force is established "Canada will assume her obligations along with other nations." Mr. Claxton spoke in Winnipeg, in the course of an inspection trip through Western Canada, and he reported that the navy and air force are up to strength and the army is about two-thirds of its full strength. The fact that Canadian armed forces are not being allowed to become disorganized, and that we are keeping abreast of the times in regard to the scientific aspect of war, does not mean that Canadians are preparing for another war. There is no place where war is regarded with more distaste than in this country, but the Canadian people have also realized the fact that being prepared in time of peace might be the means of averting future wars.

### SELECTED RECIPES

#### Frozen Lemon Crunch

2 tablespoons butter of mild flavoured fat  
2 cups corn flakes or all wheat flakes  
3 tablespoons brown sugar  
1/2 cup chopped nutmeats  
3 eggs, separated  
1/2 cup sugar  
2 tablespoons lemon juice  
1 cup whipping cream

Melt butter in heavy frying pan. Crush cereal into fine crumbs; stir into melted butter with brown sugar and nutmeats. Cook, stirring constantly, until sugar melts and caramelizes slightly. Cool.

Beat egg yolks and sugar in top of double boiler until thick and creamy. Cook over hot water about 5 minutes, stirring constantly. Stir in lemon juice; cool.

Beat egg whites until stiff; fold in the cooled egg yolk mixture and whipped cream. Pour into freezing tray which has been lined with waxed paper. Sprinkle crunch mixture over top. Freeze until firm. Cut in squares. Yield: 8 servings.

### When your BACK ACHES...

Backache is often caused by lazy kidney action. When kidneys get out of order excess acids and poisons remain in the system. Then backache, headache, rheumatic pain, disturbed rest or that "tired out" feeling may soon follow. To help keep your kidneys working properly—use Dodd's Kidney Pills. Time-tested, popular, safe, non-habit-forming. Demand Dodd's Kidney Pills, in the blue box with the red band. Sold everywhere. 135

### STOP the ITCH of Insect Bites—Heat Rash

Quick! Stop itching of insect bites, heat rash, eczema, hives, pimples, scales, scabies, athlete's foot and other externally caused skin troubles. Use quick-acting, soothing, antiseptic D. D. D. PRESCRIPTION. Greaseless, stainless. Itch stops or your money back. Your druggist stocks D. D. D. PRESCRIPTION.

### Do you suffer MONTHLY FEMALE PAIN?

This fine medicine is very effective to relieve pain, nervous distress and weak, cranky, "dragged out" feelings, of such days—when due to female functional monthly disturbances. Worth trying!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

### BE A HAIRDRESSER

Ladies earn more money—learn Hairdressing: a profession offering ambitious women unlimited opportunities. We positively guarantee complete, thorough training under direct supervision of nationally known instructors. Easy pay as you learn plan. Write or call for complete details and illustrated booklet.

Marvel Beauty Schools

309 Donald St., Winnipeg, Man.  
Regina, Saskatoon, Calgary, Edmonton

### HEMORRHOIDS

2 Special Remedies by the Makers of Mecca Ointment  
Mecca Pile Remedy No. 1 is for Protruding Bleeding Piles, and is sold in Tube, with pipe, for internal application. Price 75c. Mecca Pile Remedy No. 2 is for External Itching Piles. Sold in jar, and is for external use only. Price 50c. Order by number from your Druggist.

## Fashions

4566  
SIZES  
34-48

By ANNE ADAMS

### Long Slim Lines

For comfort and slim style you can't beat Pattern 4566. A casual that's easy to slip into, keeps you looking your best all day long. The neckline and pockets are new!

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions.

Pattern 4566 comes in sizes 34, 36, 38, 40, 42, 44, 46, 48. Size 36 takes 3 1/4 yards 39-inch fabric.

Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

### Food Safe To Leave In Tins

Many doubts and prejudices still exist about food canned in tin cans, but home economists of the Consumer Section of the Department of Agriculture say such food will keep indefinitely just as long as the can doesn't leak. Rust or dents do not necessarily mean spoilage if the can is intact.

In addition, it is just as safe, and perhaps safer to keep canned foods in the can it comes in, provided that the can is kept cool and covered. The inside of a can has been sterilized while the dish into which many housewives prefer turning their food, has merely been washed in the dishpan. However whether food is stored in a can or container "always keep it cool and covered."

Sucrose is the most abundant of all sugars that occur in plants. 2736

**ATTLEE AND STALIN AGREED OVER HER**—Only Russian wife to "escape" to Canada since the war ended is Kapa Okulitch, seen here. She is a Vancouver housewife today because Britain's prime minister, Clement Attlee, persuaded Marshal Stalin to release her and seven wives of Britishers from Russia during the Potsdam talks two years ago. Her husband is George J. Okulitch, graduate of the University of British Columbia, who went to Russia in 1943 as assistant British military attache.

### FUNNY And OTHERWISE

The farmer's wife had a very sharp tongue, but one day he got a rest from her nagging. A farm horse kicked her so badly that she had to go to hospital for treatment.

During her absence there was an unusual run of callers at the farm. "It's very nice of the neighbors, especially the men, to call and ask after the missus," the farmer remarked to the servant-girl.

"Ay, sir," replied the girl, "but most of them want to know if you'd sell the horse."

Miss Vane: "Some one told me today that I was the handsomest girl in the street."

Miss Speltz: "Oh, that's not incurable!"

Miss Vane: "What do you mean?"

Miss Speltz: "Your habit of talking to yourself."

"I hear your cook has rather an amorous disposition."

"Yes, if she can't get up a flirtation with the milkman, she starts mashing the potatoes."

"I understand she married a struggling young man."

"Yes, he struggled, but he couldn't get away."

### MAN MAY LIVE 150 YEARS PREDICT TWO SCIENTISTS

RENSSELAER, N.Y. — Medical science is faced with the challenge to give man health so he can live to be 125 to 150 years, two scientists in research have concluded.

The combined statement was made by Dr. Theodore L. Klumpp, president of the Winthrop Chemical Co., and Dr. Maurice L. Tainter, director of the Sterling-Winthrop Research Institute.

"The success of our efforts to prolong existence to this supposed natural life span depends upon our ability to maintain the life line of blood supply to the body tissues," Dr. Klumpp said. "Few die from old age; they die prematurely from degenerative diseases."

"With advances already made and without the benefit of spectacular discoveries that might come from research laboratories, it has been optimistically predicted that there will not be less than 21,000,000 people 65 years or older in the United States in 1980."

Children should never be forced to eat fat. With most of them it entirely disagrees, and does not digest, so that it is a natural instinct in them to dislike it.

New DDT COATING

for Screens, Garbage Cans, etc.

Green Cross®  
\*Reg'd Trade-mark

CERTICIDE

5% DDT Varnish

KILLS THE FLIES—LASTS FOR WEEKS

It's difficult to spray a wire screen with DDT—the deposit is not sufficient to do the job.

Now Green Cross brings you a product specially developed for this purpose—a colourless liquid coating which can be easily applied with a brush. CERTICIDE brushes on easily like a clear varnish and dries quickly. It leaves a 5% DDT deposit on the screen sufficient to kill flies, mosquitoes or other insects lighting on it for months. Also suitable for garbage cans, baseboards, verandah furniture and woodwork, etc.

A GREEN CROSS FIELD LEADER PRODUCT

Made in Canada by:

THE CANADA PAINT CO. THE LOWE BROTHERS COMPANY  
THE MARTIN-SENOUR CO. THE SHERWIN-WILLIAMS CO.

### WHEN YOU'RE TIRED AS YOU CAN BE...

TRY A CUP OF LIPTON'S TEA

ONLY LIPTON'S BRISK-TASTING TEA GIVES YOU THAT

What a lift you get from famous Lipton's Tea! It's Lipton's FLAVOR-LIFT... a delicious, stimulating combination of brisk, mellow flavor... plus a lift that sends exhilarating new energy right through you, from head to toe. Lipton's Tea is a wonderful "pick-me-up" when you're tired—wonderful anytime—morning, noon and night. And only Lipton's gives you that FLAVOR-LIFT—because it's the blend that makes Lipton's and the blend is Lipton's own secret! Get Lipton's, the tea with the FLAVOR-LIFT, at your grocer's today!

WITH LIPTON'S TEA BAGS!"

## Interesting Story—

## :: COVETER ::

By EDWARD EARL LEE

ALVIN STRINDLE was dusting when a swift movement of Mr. Roberts, at the Teller's desk, attracted his attention. He turned to see what caused that blurred action... and gasped. A man's anger-contorted face was framed outside the cage. His hand shoved a gun barrel through the bars. The weapon belched loudly; spewed its insides in flaming vomit.

The revolver's roar was followed by an alarm which the Teller had set off. Mr. Roberts grasped his side and slithered across the desk, scattering currency. The bandit grabbed at the money, then snatched away his hand. He backed off, threatening the guard and customers, then ran out.

Immediately the bank resembled an eddy in which swirled hysterical employees, ambulance crew, reporters and detectives. It was hours later before order was restored and Strindle could continue his cleaning. That was when he discovered the money. Apparently it had been dislodged when Mr. Roberts sprawled across his desk.

The currency lay in a small space between the desk and wall, too far down to be seen at a casual glance. Had it not been the day he did his weekly dusting behind furniture the money would have gone unnoticed. Strindle stared at it. He thought of his fifty years, twenty of which had been spent working at this bank. He thought of his frugal existence and how avidly he longed for a few luxuries. He remembered how he window-shopped and read newspaper advertisements covetously. He remembered his dreams of what he would do if ever he acquired an abundance of money. Now, it was practically his.

Strindle knew the bank carried burglarly insurance. When a check-up revealed this money to be missing it would be assumed the bandit was responsible. The insurance company would pay off and that would end the matter. He glanced cautiously. Nobody noticed him. During twenty years' service he had ceased to be a personality.

The janitor replaced that package of currency and while finishing cleaning made his plans. He would think up a good reason for quitting his job and give two weeks' notice. During his last weekly dusting, he would remove the money, secrete it among his dustcloths and transfer it to his street clothes when he left. On his way home, while stopping at Charlie's Grog Shop for his usual bee; while window-shopping and while reading newspaper advertisements his mind planned what he would do with that money.

Next morning, soon as he saw the bank president enter, Strindle left his work and went to the office. A visitor was ahead of him but through the door he could hear the conversation. It made him forget about quitting. That visitor was the insurance company's detective making a report.

The bandit had been caught and swore he got no money. He had no time to hide it and the policeman who chased and captured him said the criminal threw nothing away. An accounting had revealed \$10,000 missing and the insurance company was making a thorough investigation.

The detective questioned every employee. Strindle was examined longest because of being in the cage. When finished, the janitor realized he dare not quit. He must do nothing to direct suspicion to him. He followed his routine without deviation. But the following night, while drinking his customary beer, he received disturbing news.

Charlie, the taproom owner, related that an investigator from a credit company had questioned him about Strindle's character and finances. It was difficult for Strindle to keep from showing the fear he felt. Because, he had ordered no merchandise. He casually questioned Charlie, having him describe the supposed credit investigator. From that description he recognized the insurance detective.

Arriving home, Strindle's landlady added to his anxiety by telling almost the same story. In this instance, the detective had posed as a furniture representative. He explained that Strindle had ordered a suite and had sent him to appraise the old furniture for trade-in value. She had shown him to the janitor's rooms, then continued with her housework. From her description, he again recognized the detective. Going upstairs, he discovered his apartment had been carefully and thoroughly searched.

Next morning when Strindle opened his locker to get cleaning equipment he was shocked to discover that even those things had been searched. The janitor sighed, knowing what must be done. He forced himself to forget about that money. Forget it until the time arrived for his weekly cleaning behind the Teller's desk.

On that day Strindle, as usual, began dusting behind it. Suddenly he uttered a surprised whistle. The employees glanced up from their work at him. He beckoned them over and pointed to the pack of currency

for them to move the desk, to retrieve the money, to summon the president.

While explanations were being made the insurance detective arrived to make his daily report to the president and was informed of the discovery. He made no comment... merely looked intently at the janitor. That scrutiny was sufficient.

Strindle shuddered. He now knew he was cured forever of coveting that which was not earned honestly.

## THE TILLERS

### Winter Feed

Provide feed now or risk sacrificing live stock later. Sounds like a challenge, and it is. The long feeding period of last winter has exhausted reserves on many ranches and farms and the success of your live stock business depends largely on the reserves of feed you can build up between now and fall.

Unfortunately green feed crops are expected to be light as a result of less than normal rainfall and the high July temperatures. The more general practice of combining has cut down on the number of straw stacks in the fields. Forage seed production has decreased the quantity of alfalfa and clover cut for hay. All these things have affected or are affecting the live stock feed supply.

Feed shortages can be prevented and difficulties overcome provided all available feed is put into a stack for future need. A straw barge to collect straw from the combine is one method that has been used successfully to make sure of supplies of roughage for winter use, and you can probably think of others. The main thing is to look ahead and plan your feed supplies before winter comes.

### Prevent Loss by 'Wheat' Combine Operation

F. B. Martin, agricultural engineer for the Alberta department of agriculture says that heavy losses during harvest often occur from inefficient use of the combine.

He advises that there are a number of places where grain may be lost including the cutter bar, cylinder, straw rack and the shoe. The cylinder loss is usually the lowest but the adjustment at the cylinder has a decided effect on the losses at the rack and shoe. In order to reduce total machine loss it is desirable that the losses at each of these places be balanced as much as possible.

Loss at the cutter bar is usually one of the highest. It includes all shelled grain and heads that have been thrown to the ground by an improperly adjusted reel. Next in extent is the rack loss, and this is important because so many adjustments of the other areas have a distinct bearing on the extent of the rack loss. Overloading means higher rack losses. A high shoe loss is usually associated with a high rack loss.

A combine will handle only a certain volume of material efficiently and the limit of capacity will vary with different machines and the condition of the crop. In crops of heavy or lodged straw it is a good idea to reduce the rate of travel if possible to avoid overloading the straw rack.

### Nutrition Question Box

A question often asked at this time of year is "Are prepared cereals as good for us as the cooked kind?" During the hot weather many people prefer cold to hot cereals. Miss Joyce Lewis, nutritionist for the home economics service of the Alberta department of agriculture advises that the nutritive value of prepared cereals is not as high as the cooked, but whole grain varieties are used and are made as good.

You can expect your food cost to go up a bit when you use prepared cereals. A rack-charge may not seem to cost much but just compare it in terms of weight with the cost of your cooked cereal. There are some prepared cereals on the market which, when considered in terms of the weight of grain in them, would bring the cost of wheat to twelve or fifteen dollars a bushel.

### OFF THE RECORD

It is claimed that eating less meat would not be competitive prices.

Maybe it's just plain hogwash!

Here's the safest and longest wearing tire ever built. It has up to 60% more non-skid angles and gives up to 32% longer mileage. Drive in and let us equip your car with this revolutionary new tire today!

**TIRES (600-16) \$21.55 TUBES (600-16) \$4.35**

Ultra-smart! Extra-durable!  
**Firestone High Quality**

**SEAT COVERS**

They're tailor-made to fit your car. A combination of cloth and fibre in colourful design, with seams double lock stitched to insure maximum strength.

**FRONT SEAT \$9.55 REAR SEAT \$7.40**

Travel in Comfort!

**WEDGE CUSHIONS**

The curved padded wedge shape gives full support. Available in various coloured fabrics or simulated leather.

**EACH FROM \$1.85**

Make old wheels look like new!

**WHITE METAL SIDEWALLS**

Dress up your car with these sturdy white enamel-finish sidewalls. Easily installed.

**PER SET OF FOUR—FROM \$9.80**

Protect your car grille with  
**GRILLE GUARDS**

They're sturdily built and beautifully finished in gleaming chrome. Available in single or double bar combination.

**FROM \$3.65**

**TWIN TRUMPET HORNS**

Deep tone, extra long projectors with protective screen grilles to keep you safe. Complete with relay. **Each \$9.70**

**AUTO COMPASS \$4.90**

Accurate and easy to read. **Each**

Here are a few of the Firestone Cleaning and polishing materials that we carry:

**Firestone SPEEDY CAR WASH**

Here's a soapless washing compound that cleans quickly and easily. Leaves no greasy residue.

**8 oz. tin .30c**

**Firestone CLEANER & POLISH**

Brings out the original lustre on your car with little effort. Contains no harsh abrasives.

**16 oz. tin .70c**

**Firestone METAL POLISH**

Quickly removes tarnish from chrome fittings. Will keep the metal on your car shining like new.

**8 oz. tin .30c**

**Firestone GLASS CLEANER** 12 oz. .30c

This scientific preparation has a rapid dissolving action. Leaves no oily or soapy film. Try it.

**Sheepswool Marine SPONGES**

These soft, durable and extremely absorbent sponges will make car washing a pleasure.

**each \$2.00**

**Firestone POLISHING PADS**

They're a convenient hand size, fully packed with high-grade cotton, and washable. Two pads to a package. **package .30c**

**WHITE TIRE COATING**

Try this coating on your tires. Flows easily, wears well. **Tin .95c**

**BLACK TIRE PAINT**

Renew the original appearance of your tires. **16 oz. tin .50c**

## Ban Alberta Shooting of Upland Game Birds

Alberta hunters will not be permitted the shooting of any upland game birds in the province this fall according to new regulations passed by the provincial cabinet it has been announced.

Along with the prohibition on the shooting of prairie chickens Hungarian partridge or bush partridge the regulations sharply restrict bag limits on migratory game birds, ducks, geese, rails, coots and Wilson snipe.

The season for shooting migratory birds opens all over the province one half hour before sunrise September 20th and lasts until one half hour after sunset November 11th. Shooting of pheasants will be permitted in a sharply restricted area in southern Alberta for a two week period.

Five geese, seven ducks and five Wilson snipe is the daily bag limit, while hunters may shoot 20 geese, 36 ducks, 80 rails and coots and 56 Wilson snipe during the entire season.

Sunday shooting as usual, is banned.

PURITY HEAVY DUTY MOTOR OIL has the extra toughness needed for trucks, tractors and other heavy-duty motors.

There are PURITY LUBRICANTS and PURITY "99" GASOLINES and FUELS for all types of motor vehicles and farm machinery.

For retail or bulk sales see your PURITY DEALER.

## Pure Pepper Available but Prices High

Paul Sykes, Canadian trade commissioner in Singapore, reports that there is no basis for the apprehension regarding the world supplies of pepper and the possible necessity for the continued use of wartime substitutes. There are ample supplies of various types of pepper available for immediate export from Singapore and prospective Canadian buyers can be supplied with firm orders at any time though prices are comparatively high. Despite reported shortages and keen demand in Canada and the United States no business worth mentioning is being done in either of these markets at present.

## Build Highway Bridge

Construction of a new \$140,000 highway bridge over the Red Deer river at Empress is to be undertaken by the provincial government. It is a joint undertaking with the Saskatchewan government who is contributing to the cost.

Engineers for the provincial department of public works are on the site selecting the locations of piers which will be started just as soon as a lower river level will permit the work. Steel also will be moved to the site shortly so that construction will be under way as soon as things are in readiness for that phase of the program.

The provincial authorities also hope to complete this winter the new highway bridge on the main highway near Red Deer. Preliminary work was commenced early in the year, after which it was necessary to suspend operation until fall.

## OFF THE RECORD

The dollar scarcity, says a report, is top news in Ottawa now because it is creating a first class problem for the people of Canada. We didn't even know that was news since the dollar shortage has always done the same for lots of folk we know.

## WEDDING

A wedding of interest was solemnized at 7 o'clock on Wednesday, Aug. 20th at the Pro Cathedral, Calgary, when Kathleen Margaret Reid, young daughter of Mrs. Raymond Millarville, was united in marriage to Kenneth L. Swanson of Calgary, Rev. Canon Herbert officiating.

The bride entered the church on the arm of her uncle, Frank Emery, to the strains of the wedding march. She looked lovely in a floor length gown of white taffeta and long flowing veil and carried a bouquet of red roses.

Her bridesmaid, Miss Pearl Kenny, wore a floor length gown of blue taffeta and wore a chapel veil and carried a bouquet of pink carnations.

The groom was attended by his brother.

Immediate relatives and close friends gathered at the banquet room of the Empress Grill where the bride's table was centred with a three tier wedding cake.

The couple left after the reception for a honeymoon at Banff for which the bride chose for travelling a brown gabardine suit with brown accessories. On their return they will reside in Calgary.

## The Pool and The Wheat Policy

The passage of the years has developed a curious situation with regard to the selling of Canadian wheat. Seventeen years ago the Wheat Pools were belabored the length and breadth of Canada by the grain trade for trying to "hold up" the British consumers. The trade in the United Kingdom and in Europe joined the chorus, and it was even stated that British millers were boycotting Canadian wheat because of the tactics of the Wheat Pools.

The price of wheat then was about \$1.25 a bushel. At that time Great Britain was a relatively prosperous nation and the same could be said of continental Europe. Food was in fair abundance and there was no starvation in Europe.

Seventeen years ago Wheat Pool opponents were stating that the operations of the Pools would result in heavily increased taxation. At that time federal taxes, particularly income tax, were comparatively light.

The Wheat Pools are now being accused by the supporters of speculative marketing of holding down the price of wheat. They state that if Canadian wheat had brought world prices last crop year it would have meant additional revenue of from \$100 million to \$195 million for producers.

It is now contended by the grain trade that all Canadian taxpayers should contribute additional sums in taxes to bring the price level of Canadian wheat up to world price.

A plan without a man is like milk without a can, no one can carry it out.

Not only man and crow but also bold eagles carry messages to their nest.

Artificial eyes of plastic are said to be superior in every way to glass.

**LONDON SEES HELICOPTER RESCUE TECHNIQUE** — First commercial helicopter to land and take off in London, Eng., is seen in rescue demonstration before British government officials. Man is being hoisted from a raft by a small winch while the helicopter hovers overhead. The craft is a Sikorsky S.51.

**BUILT-IN WATER-COOLING SYSTEM**—Let it get hot. Let it get humid. Babe doesn't give two whoops in a rain barrel, for she carries her own cooling system around with her in her trunk. Trunk and shower, are, of course, built in. Babe being a zoo elephant, all she has to do to cool off is to stick her schnozzle into the nearest pool of water, point it aft and squirt, as she is doing here.

**ATE LYE, UNABLE TO EAT, GIRL SURVIVES**—Brought from St. Anthony, a town in north Newfoundland, Alma Goosney has been fed through a tube as she was unable to swallow. Months ago she ate lye, which closed her esophagus, the tube leading from mouth to stomach, and two nurses from the Hospital for Sick Children, Toronto, arranged for treatment. No longer fed by a tube, it is expected that in a few months she will be able to eat normally.

**"A MIGHTY MAN..."** — Mrs. Gladys Crawford, 106 pounds, can swing a hammer with the best of them. She has been shoeing horses, forging steel and pounding metal for years. Since 1942 she has been helping her father in his Niagara Falls blacksmith shop.

**FIRST MACHINE-GUN SLAYING IN 15 YEARS**—Victim of the first New York machine-gun slaying since the old prohibition era gangs "rubbed" out Vincent Coll in 1932, the body of Vincent Wice lies stretched out in an uptown street while a curious crowd looks on. Dozens of children were playing nearby when a black sedan drove up and a man stepped out and opened fire on Wice, a milk-wagon driver, with a tommy-gun. The motive for the slaying is a mystery.

**SMALLEST POMERANIAN IN CANADA**—Smallest Pomeranian in Canada and possibly U.S., Beland Wee Wonder is seen with Mary Smith. The dog is owned by Mrs. F. Peacock of Hamilton.

**FABRIC OF FUTURE** — Today's pots and pans are tomorrow's evening gowns—as demonstrated by Bess Myerson, shown here at the International Exposition of Textiles in New York, modelling a dress made from aluminum fabric. The material is made from non-tarnishable yarns and is one of the "fabrics of the future" at the fashion show.

**NEW HAT TRICK** — Blueprints, T-squares, saws, hammers and other building paraphernalia built this hat worn by Patsy Reno at Los Angeles, Calif., during an exposition designed to show southern California's progress in catching up with the housing problem.

**BIGGEST EAGLE SHOT IN SOUTHERN ONTARIO**—Biggest American eagle to be shot in southwestern Ontario in many years is this specimen held by Mrs. Jack Taggart and Jack Maryion at Turkey Point on Lake Erie. The giant's wing span is six feet four inches.

**AND AFTER THIS, BOWS AND ARROWS** — Combat Artist Vic Donahue sketched these unofficial conceptions of warships of the future. Here are a guided missile ship, raider, aircraft carrier, and an "attack-killer".

**THE WARNING SIGN**  
A new scientific instrument makes it possible to hear the action of the muscles. When these sounds become audible to the unaided ear, of course, it merely means that you have been doing a little unaccustomed gardening.

## OUR COMPLETE SHORT STORY—

## THE KING TROUT

By MATTHEW F. CHRISTOPHER

HE held the black, slender fishpole in his left hand and the minnow pail in the other, and walked down the narrow path through the woods with his chest sticking out naturally and his strong, sturdy legs taking long, even steps.

That was much the same. But that was only half. His dad wasn't tagging behind like he used to. Kim got thinking about it, but his heart was too small to hold the load he thought and it burst into soft, tender tears that wouldn't get past his throat.

He swallowed a couple of times and tried to face this new situation bravely, challengingly. It was awful lonely. Every little noise was a magnified sound to his young, alert ears. The soft rustle of the leaves pushed against each other by the wind; the scratchy note of a squirrel cracking a nut with its sharp teeth; the loud, happy trill of a vireo.

All that he had heard before. But mingling with those familiar sounds had been his dad's soft, memorable whistling, like an accompaniment to those noises that lived in the woods. Now, that was missing, too.

A partridge leaped up with a loud flutter of feathers from a dead, dried-up bush a few feet beside him, frightening him for an instant and he remembered the time he had shot his first grouse. Dad had been with him,

then. A cottontail scurried noiselessly across the path in front of him. Then suddenly ahead loomed the huge, oak-tree trunk, the marker that indicated the creek was near; and presently he could hear it, a soft, broken sound like distant thunder.

He walked past the huge trunk. He used to run at this point, he remembered. He came to the sharp decline which was almost devoid of trees or brush all the way down to the creek some ten feet below. A long, slender log, rotted at one end and with pieces, of bark chipped off it, lay nearby, held by stones wedged in underneath.

Kim carried his fishing equipment to the log and sat down. He glanced at the place beside him, the place formerly occupied by his father, and the loneliness hit him.

He opened his minnow pail and pulled out a small wriggling chub. He baited his hook with it, rose and stepped forward upon the bare, white rock, so close water splashed wetly upon his low shoes.

It was the trout he was after. The King, his dad had called it. That huge, green, orange-speckled fellow that was the biggest ever seen in the creek. His dad had caught it when he was on furlough several months ago, just before he was to be shipped overseas. He had held it out of the water for an instant while it thrashed and writhed at the end of the line, then lost it.

It had been his last furlough day, and he had to depart that night for camp. But he'd said: "Don't worry, Kim," with a persevering grin on his lips, "I'll be back one of these days, and I'll get the King. You wait and see."

"You bet, dad," he had answered. "I've got my money on you."

Now, that he wasn't coming back any more, Kim had decided he'd get the trout himself. He'd get it for his dad. Wherever he was, he'd be happy his son had fulfilled the desire he could not fulfill himself.

He swung the feather-weight, steel pole over his shoulder, and whipped it around as his dad had taught him. The reel whirled as the line snaked out over the rushing, silvery water. He wished he had boots so he could wade out into the creek, but his dad had told him, "When you're older, son, and a little bigger, I'll get you boots. But you're rather small, yet. The water's strong and might throw you." So he'd stand on shore, anyway.

The bright, orange sun coming over the tree-tops on the other side touched his eyes and he pulled down on the brim of his straw hat. After awhile he felt a nibble; then another one. Tensed, he jerked on his pole. The line straightened, a fish leaped out of the water. His heart pounded. It was a trout, a nice-sized one, but not the King.

Saddened, he returned it to its creek-home. He had come after the King; that was all he wanted to take back with him.

Time crawled, and the leaf shadows on the shore moved outward into the creek, where it lost its shape in the rippling unstill water. Gradually, the sun moved across the ceiling of blue sky, behind patches of white clouds no two alike in shape. It beat warm-

**CAN NOW ENJOY FOOD**—Having the time of his young life these days is Albert Gagnon, of Meadow Lake, Sask., who can taste food now after the surgical skill of Dr. Harold Wookey provided him with a new gullet. Patient at Toronto General hospital, Albert, nine, drank lye when two, had his oesophagus destroyed. He celebrated his ninth birthday in fine style with a birthday cake.

ly through his straw hat, and he felt a hunger that told him it must be dinner time—time to eat.

He lay his pole on the side and unwrapped the sandwiches his mother had prepared for him.

He remembered the pitiful expression she had on her lonely, oval face, in her big, gold-flecked eyes that burned so much with tears when she had gotten the news...

He ate all but one sandwich. He'd eat that later.

He picked up his pole, baited it with a fresh chub, and tried again. An hour and a half went by, and suddenly he felt a tug at the end of his line. He tensed, every muscle in his young, husky body straining, his fingers individual vises gripped around the cork handle of the pole.

He waited with abated breath, and saw the end of the pole pulled down toward the water. It was the King Trout!

He jerked up on the pole. The middle bent into the shape of a scimitar, and the line tautened and quivered. He pulled harder. The line knifed through the water, then suddenly snapped out—empty!

"Missed him!" Kim exclaimed bitterly. His lips pursed, and he tightened his teeth. "But I'll get 'im! I gotta get 'im!"

The King had taken the minnow. Kim rebaited the hook, cast the line out again. He waited. The shadows grew longer, and a little wind began to stir. He started to feel a lost, sunken feeling in his stomach, an ache in his young, fast-beating heart. He ate the sandwich he had saved. And time went on—and he was getting hungry again.

Then suddenly, he felt that pull! It was strong—very strong. He jerked up on the pole. It curved sharply.

A fish leaped out. A great big, green, speckled fish with a white belly! It thrashed wildly and angrily at the end of the line.

The King Trout!

His heart swelled. A smile beamed on his face. He swung the pole up vertically and caught the flogging trout in his small, strong hand. He carried it back from the water and pulled the hook, with the chub-bait still on it, out of its big, round mouth. Then, hanging on to it with all the strength he could muster he picked up the short cord on which to string the King.

And then—just then—he thought of his dad. Something queer came over him, a strange, peculiar feeling. He stared at the fish, and, as if from a distance, his father's words came to him, "Don't worry, Kim. I'll be back one of these days, and I'll get the King. You wait and see."

Wait and see! The words struck him, now, and he began to see things in a different light. He felt ashamed of himself, as if he had taken something that did not rightfully belong to him. And suddenly he knew that was it. The King did not belong to him...

Quietly, and unrestrainedly, he lifted the King high, and tossed it back into the creek. It squirmed like a huge, flat worm in the air, landed with a splash, and was gone.

Calmly, he picked up his fish pole, and minnow pail, and started up the bank for home.

(Copyright Wheeler Newspaper Syndicate)

Open Super-Railway  
In London

LONDON.—London's new £1,000,000 (\$4,000,000) "super-railway", a Western extension of the central underground line, was opened to passengers recently.

To eliminate noise the trains run over rails bolted and welded in continuous half-mile lengths instead of the usual 60 feet. At the end of the half-mile lengths there are special silent joints which eliminate jolts even there.

WOMAN COULD NOT  
LAUGH AT HERSELF

Charles Cole, Cartoonist, tells this story: "Making caricatures of women is particularly dangerous. That's why I will never do it if I can avoid it. Once I drew a frank caricature of quite a famous man, and his wife thought it so very funny that she pealed with laughter until he became really annoyed. He whispered 'Do one of her'—I did, and the lady has never spoken to me since."

MANY NEW POST  
OFFICES TO BE BUILT

OTTAWA.—Postmaster General Bertrand said in the Commons recently his department hoped to build "quite a lot" of post offices across the country next year.

Replying to questioning during study of his departmental estimates, he recalled that no new offices were built during the war years and said a considerable number now were needed. They would be built in centres where revenue totalled \$10,000 a year or more.

## VERY LARGE ORDER

The Kingston Whig-Standard says engineers are said to be working to eliminate everything which would distract automobile drivers. This strikes us as the largest order the engineers have ever undertaken, and it might eventually lead to built-in blinkers and ear-plugs for drivers, with handcuffs and gags for passengers.

When  
Prices  
Pinch  
-Serve  
Postum

With beverage prices higher, POSTUM is better value than ever. A serving of POSTUM costs as much as 50% less than other meal-time beverages.

It's better for the health too! POSTUM is caffeine-free—contains nothing to upset nerves or stomach. Convenient—made right in the cup.

P-47 A Product of General Foods

SWEETER  
TASTIER White Bread

## RECIPE

Put 1 c. lukewarm water in bread bowl, add 1 envelope Royal Fast Rising Dry Yeast and 1 tsp. sugar, stir; let stand 10 min. Scald 2 c. milk, add 5 tbs. sugar; add 5 tsp. salt; cool to lukewarm. Add to yeast with 1 c. water; add 6 c. sifted flour; beat well. Add 5 tbs. melted shortening and 6 c. more sifted flour, or enough to make easily handled dough. Knead dough quickly and lightly until smooth and elastic. Place dough in greased bowl, cover; set in warm place, free from draft. Let rise until doubled in bulk. Punch dough down in bowl; let rise again until about  $\frac{3}{4}$  as high as first rise. When light, divide into 4 equal portions; shape into balls. Cover with cloth; let rest 10 to 15 min. Shape into loaves; place in greased bread pans. Cover; let rise until doubled in bulk, about 1 hour. Bake in 425° F. oven for 15 min., then reduce heat to 375° F. Finish baking about 30 min. longer.

**FARMER'S COLUMN**

By R.J.M.

How many of you farmers  
have seen the grass plots on  
the W.I.D. property or those  
on the Stoodley farm? If you  
haven't done so, do it at once.All the above plots have re-  
acted to conditions as we ex-  
pected. The two on irrigated  
land are rugged and growthy.  
Surprising as it may seem the  
dry land plots are exceptional  
and some of the grasses grew  
better than was expected. Re-  
ference here is made to Timo-  
thy and Reed Canary Grass.The farmers tributary to the  
Stoodley farm should make a  
special effort to study the plot  
on this farm. Crested wheat-  
grass and Creeping Red Fescue  
are very good. I did not expect  
the Fescue to stand up so well  
under drought conditions, but  
it did very well. Several years  
will have to elapse before final  
judgment can be passed. The  
best mixture was the crested  
wheatgrass, brome, timothy  
and the following legumes, alfal-  
fa, sweet clover and alsike clover.  
This mixture was 26 inches  
high, hick and leafy. If I were  
estimating the yield of hay I'd  
place it at 1 1/4 to 2 tons per  
acre.All the plots were fertilized.  
That on the Stoodley farm had  
11-48 placed on the east third  
with 16-20 on the west third,  
the centre third being unfertil-  
ized. Field observation would  
indicate that it is an economi-  
cal practice to fertilize hay  
fields, particularly with 11-48.The plots were weeded but  
otherwise have had no special  
care. The plots on the irrigated  
land were watered once each  
season and showed the advant-  
age of the irrigation. These  
plots indicate the advantages  
from both fertilizer and irriga-  
tion. Here, the moisture loving  
plants like timothy and reed  
canary grass grew profusely.  
Again the mixture of crested  
wheatgrass, brome and timothy  
with alfalfa, sweet clover and  
alsike are the heaviest and  
give the highest yield of hay or  
pasture.The W.I.D. planted a plot to  
grass that made two tons to the  
acre this summer. The rate of  
seeding on this plot was up to  
22 pounds per acre. This rate is  
not always recommended, yet  
on this plot of land referred to,  
this rate was necessary and  
beneficial. All the experimental  
plots were seeded at the rate of  
10 to 14 pounds per acre.If you are in doubt as to  
visit one of the plots and see  
what grass or legume to grow,  
for yourself.**CLASSIFIED ADS**FOR SALE -- McCormick Deer
